

■ SetAttributes

`SetAttributes[s, attr]` adds *attr* to the list of attributes of the symbol *s*.

`SetAttributes` modifies `Attributes[s]`. ■ `SetAttributes[s, {attr1, attr2, ...}]` sets several attributes at a time.

■ `SetAttributes[{s1, s2, ...}, attrs]` sets attributes of several symbols at a time. ■ `SetAttributes` has the attribute `HoldFirst`. ■ See also: `ClearAttributes`, `Protect`. ■ See page 214.
