

## ■ Ceiling

`Ceiling[x]` gives the smallest integer greater than  $x$ .

Mathematical function (see Section ??). ■ Examples: `Ceiling[2.4]`  $\longrightarrow$  3; `Ceiling[2.6]`  $\longrightarrow$  3;

`Ceiling[-2.4]`  $\longrightarrow$  -2; `Ceiling[-2.6]`  $\longrightarrow$  -2. ■ See page 341. ■ See also: `Floor`, `Round`, `Chop`.
