

■ HypergeometricU

`HypergeometricU`[a , b , z] is the confluent hypergeometric function $U(a, b, z)$.

Mathematical function (see Section ??). ■ The function $U(a, b, z)$ has the integral representation

$$U(a, b, z) = \frac{1}{\Gamma(a)} \int_0^\infty e^{-zt} t^{a-1} (1+t)^{b-a-1} dt. \quad \blacksquare \text{ See page 363.}$$
