

■ ClearAttributes

`ClearAttributes[s, attr]` removes *attr* from the list of attributes of the symbol *s*.

`ClearAttributes` modifies `Attributes[s]`. ■ `ClearAttributes[s, {attr1, attr2, ...}]` removes several attributes at a time. ■ `ClearAttributes[{s1, s2, ...}, attrs]` removes attributes from several symbols at a time.

■ `ClearAttributes` has the attribute `HoldFirst`. ■ See also: `SetAttributes`, `Unprotect`. ■ See page 214.
